ABOUT COMPANY

Our experienced team of naval architects and marine engineers, making use of a network of maritime specialists, provides flexible, fast-reacting and non-bureaucratic services for any kind of shipbuilding and conversion projects. We provide a full range of ship design and construction services, giving customers a close co-operation between our team members, which finally avoids communication problems and delays.

Our colleagues working in the company have gained their experience in shipyards and design offices they have worked for, in different projects and on different kinds of vessels. We can provide tailor-made solutions or suggest to you one of our concept designs. For us, it is important that our clients see their wishes become reality, within time and budget!
